

About Apoethecary

Our products are tailor-made to target the most common post pole woes: aches, soreness, bruising, dryness, and the like. We use natural and ethically sourced ingredients to heal your body in the most luxurious way.

As a brand, we stand by Simpliciity, Efficacy, and Sustainability. Here at Apoethecary, we use natural and ethically sourced ingredients you can pronounce and recognize that not only feel great but actually work! These are all packaged in recyclable containers and curated with the environment in mind.

OUR PRODUCTS

ANTIDOTE - THE GRIP REMOVER

Antidote is our grip remover that not only whisks away any and all grip aids from your skin, but it also cleanses, hydrates, soothes, and heals. Its the perfect quick reset between pole and dinner plans or stage to VIP. Just rub it on like a lotion and watch the stick ick become a thing of the past. No need to rinse!

RITUAL - GRIPPY BODY WASH

This body wash will turn your shower into a daily ritual that no longer compromises your pole play! Not only are you left cleansed, but your skin is moisturized yet left with a natural stickability so you no longer have to schedule your showers around your next pole session.

Scent: THE|BAR's signature fragrance "This smells like THE|BAR"

PRIME - BEFORE POLE BODY PREP

You have pole today but you're dry and slippery! Prime is the skin pole prep you body has been missing. It's a moisturizer specifically made to target dry slipper skin with the right balance of hydration while provide a little tackyness just in time for your next pole session.

Apply at least 30 mins prior to poling
